*The Future of Nursing* - Institute of Medicine 2011-02-08

The Future of Nursing explores how nurses' roles, responsibilities, and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020, and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles -- including limits on nurses' scope of practice -- should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the Institute of Medicine makes recommendations for an action-oriented blueprint for the future of nursing.

*Look Back in Hunger* - Jo Brand 2009-10-01

Jo Brand is one of Britain's funniest and best-loved comedians. With a sharp eye for the absurd and in her own unique voice she tells her story for the first time. What possessed her to become a professional comedian in the cut-throat world of stand-up comedy after ten years as a psychiatric nurse? How did she deal with late night drunken audiences? Raised in middle class comfort, she left home in her teens to live with someone entirely inappropriate. Her parents were aghast at her behaviour and attempted to rein in her excesses, finally giving up when she demonstrated that she was not headed for the life of a nun. From her early years growing up in a small south coast town with two brothers who toughened her up, to emerging on stage as 'The Sea Monster', Jo Brand tells it like it is with wit, candour and a wonderful sense that life can be ridiculous but there's always a funny side. Jo Brand is one of Britain's funniest and best-loved comedians. With a sharp eye for the absurd and in her own unique voice she tells her story for the first time.

**Looking Back, Moving Forward** - Girish Daswani 2015-02-26

How do Ghanaian Pentecostals resolve the contradictions of their own faith while remaining faithful to their religious identity? Bringing together the anthropology of Christianity and the anthropology of ethics, Girish Daswani's Looking Back, Moving Forward investigates the compromises with the past that members of Ghana's Church of Pentecost make in order to remain committed Christians. Even as church members embrace the break with the past that comes from being "born-again," many are less concerned with the boundaries of Christian practice than with interpersonal questions - the continuity of suffering after conversion, the causes of unhealthy relationships, the changes brought about by migration - and how to deal with them. By paying ethnographic attention to the embodied practices, interpersonal relationships, and moments of self-reflection in the lives of members of the Church of Pentecost in Ghana and amongst the Ghanaian diaspora in London, Looking Back, Moving Forward explores ethical practice as it emerges out of the questions that church members and other Ghanaian Pentecostals ask themselves.

This book of real-life stories has been drawn together from many that have been shared with us over the years. They show that whilst every experience of hysterectomy is unique there are common threads and themes running through them. Other people's stories help women feel less isolated. They show that they aren't going mad, missing the point or stupid. They show their concerns are genuine and that the only way to deal with them is to voice them. They are a mixed bag telling of loss, happiness, joy and pain and they talk of a need to share with others before moving on.

*Moving Forward by Looking Back* - Craig Steiner 2009-08-30

How many times have you poured your heart and soul into something for your youth ministry—only to have it fall flat, leaving not much more than a fond memory in the minds of students, let alone amazing life-change in their hearts? You're not alone. Far too often, we build plans and programs and then stop to ask God to bless them. We all want a transformational student ministry, but we need to remember that God has to be the one doing the transformations in the lives of our students. Based on the principles found in the book of Acts, *Moving Forward by Looking Back* will help you look back at how God transformed lives through the early church, and look forward at how those principles can be applied to your youth ministry today. As you reflect on the book of Acts, you'll explore how your youth ministry can implement the principles of:

- Adoration—engaging students with God
- Community—engaging students with God's people
- Truth—engaging students with God's Word
- Service—engaging students with God's world

**Walking Forward, Looking Back** - Dinah Latham 2014-10-28

The book tells the story of a retired district nurse and midwife reflecting on her life whilst walking with her close companion Harriet, the dog. It is a touchingly honest work written straight from the heart. The reader will both laugh and cry as the author recounts many moving stories of patients cared for in 1960s London. The writings so patently contrast care in the community then and now that it becomes impossible not to regret the passing of a time when nursing was seen as a vocation, when nurses were proud to serve. Divorce and single parenthood accompany her career journey, while living alone escorts her into retirement. It is then that fortune takes a hand, or rather a paw, and brings Harriet the dog into her life. This may just have been the coming together of chance and good timing but, destiny or happy accident, it was certainly a blessing. It was her need to be taken on daily walks that finds our author evoking memories, randomly flicking through a lifetime of unwritten diaries. Together they share their walks taking the reader through the changing seasons of the Chiltern countryside, while also travelling a new pathway, one with an unfamiliar landscape ... a one way journey into growing old. This is a voyage of discovery, one that promises many unexpected new experiences ... not the least of which is their most recent pastime ... shepherding!
