This book combines insights from language assessment literacy and critical language testing through critical analyses and research about challenges in language assessment around the world. It investigates problematic practices in language testing which are relevant to language test users such as language program directors, testing centers, and language teachers, as well as teachers-in-training in Graduate Diploma and Master of Arts in Applied Linguistics programs. These issues involve aspects of language testing such as test development, test administration, scoring, and interpretation/use of test results. Chapters in this volume discuss insights about language testing policy, testing world languages, developing program-level language tests and tests of specific language skills, and language assessment literacy. In addition, this book identifies two needs in language testing for further examination: the need for collaboration between language test developers, language test users, and language users, and the need to base language tests on real-world language use.

From Struggling Students to Successful Writers in 7 Easy Steps - Joanna Posey 2009-09

This Volume, is the first of 2 volumes that are being released together, but under separate covers. Volume 1, contains the instructional guide to teach special education students and English language learners to be successful writers, in 7 easy steps. In view of the increasing educational dropout rate of these special populations, this unique, simple program offers encouragement, hope, and success to students who are struggling in developing their writing skills. Not only is this program easy to learn and remember, but students are able to increase their writing skills in shorter periods of time. This Volume contains five, no-frills, bare-bones lesson plans along with teacher comments. It also includes reproducible Master Guide Sheets, and student Self-evaluation forms. The simplified color coding system is used as a consistent, predictable routine in each writing activity. This program, like no other, promotes student self-confidence and renewed interest in learning. The words, "I can't write" turn into "Yes, I can!" However, the best kept secret is that these 7 easy steps will help all students. Listen to what the kids are saying: "I had a lot of fun with Steps 1 to 7. They really helped me with my work," (comments from an 8th grade student). "The first thing I learned was Steps 1-7. I learned how to write better paragraphs," (comments from an 8th grade student). "I learned how to web my ideas using complete sentences," (comments from an 8th grade student). "I did really well on my writing assessment because I used the 7 steps," (comments from a 9th grade student) "I couldn't write a complete sentence. With these steps, I can write complete paragraphs and essays for Language Arts and Geography. I did well in my writing test, too," (comments from a 9th grade student). Listen to what teachers are saying: "I have been in meetings where parents have commented how effective her writing program has been with helping their kids. I've often heard parents express their gratitude for their child's success due to Ms. Posey's teaching," (comments from a junior high teacher). "After the 9th graders took the writing assessment, several of the students commented on how good they felt about their writing abilities that were a direct result of the efforts of Ms. Posey," (comments from a junior high teacher). "Her strategies and writing techniques resulted in 50% improvement, an impressive increase, in the scores of resource students for the 9th grade direct writing assessment. This is the highest achievement I've seen in my 30 years of teaching," (comments from a secondary special education teacher).

Write Like this - Kelly Gallagher 2011

If you want to learn how to shoot a basketball, you begin by carefully observing someone who knows how to shoot a basketball. If you want to be a writer, you begin by carefully observing the work of accomplished writers. Recognizing the importance that modeling plays in the learning process, high school English teacher Kelly Gallagher shares how he gets his students to stand next to and pay close attention to model writers, and how doing so elevates his students' writing abilities. Write Like This is built around a central premise: if students are to grow as writers, they need to read good writing, they need to study good writing, and, most important, they need to emulate good writers. In Write Like This, Kelly emphasizes real-world writing purposes, the kind of writing he wants his students to be doing twenty years from now. Each chapter focuses on a specific discourse: express and reflect, inform and explain, evaluate and judge, inquire and explore, analyze and interpret, and take a stand/propose a solution. In teaching these lessons, Kelly provides mentor texts (professional samples as well as models he has written in front of his students), student writing samples, and numerous assignments and strategies proven to elevate student writing. By helping teachers bring effective modeling practices into their classrooms, Write Like This enables students to become better adolescent writers. More important, the practices found in this book will help our students develop the writing skills they will need to become adult writers in the real world.

This greatly expanded follow-up to Automated Essay Scoring reflects the numerous advances that have taken place in the field since 2003 including automated essay scoring and diagnostic feedback. Each chapter features a common structure including an introduction and a conclusion. Ideas for diagnostic and evaluative

feedback are sprinkled throughout the book. Highlights of the book's coverage include: The latest research on automated essay evaluation. Descriptions of the major scoring engines including the E-rater®, the Intelligent Essay Assessor, the Intellimetric™ Engine, c-rater™, and LightSIDE. Applications of the uses of the technology including a large scale system used in West Virginia. A systematic framework for evaluating research and technological results. Descriptions of AEE methods that can be replicated for languages other than English as seen in the example from China. Chapters from key researchers in the field. The book opens with an introduction to AEEs and a review of the "best practices" of teaching writing along with tips on the use of automated analysis in the classroom. Next the book highlights the capabilities and applications of several scoring engines including the E-rater®, the Intelligent Essay Assessor, the Intellimetric™ engine, c-rater™, and

LightSIDE. Here readers will find an actual application of the use of an AEE in West Virginia, psychometric issues related to AEEs such as validity, reliability, and scaling, and the use of automated scoring to detect reader drift, grammatical errors, discourse coherence quality, and the impact of human rating on AEEs. A review of the cognitive foundations underlying methods used in AEE is also provided. The book concludes with a comparison of the various AEE systems and speculation about the future of the field in light of current educational policy. Ideal for educators, professionals, curriculum specialists, and administrators responsible for developing writing programs or distance learning curricula, those who teach using AEE technologies, policy makers, and researchers in education, writing, psychometrics, cognitive psychology, and computational linguistics, this book also serves as a reference for graduate courses on automated essay evaluation taught in education, computer science, language, linguistics, and cognitive psychology.
